# Smasher

This plane is a very fast and very easy to make glider. This design can be used to make heavier planes to be launched with a rubber band shooter. Fins may have to be turned down.

Note: Red lines are for folds, blue lines indicate existing creases, and green lines represent hidden edges.
Point 1

Step 1

Fold paper in half long ways and crease. Unfold.

Step 2

Fold top corners down to meet at center. Unfold.

Step 3

Fold top section down as shown. Flatten well.

Step 4

Fold Point 1 up to meet top edge.

Point 2

7/8"   1 1/16"

Step 5

Fold top corners down to meet centerline at Point 2.

Step 6

Fold in half and flatten well.

Step 7

Fold wings over 7/8" from centerline.

Step 8

Fold fins up 1 1/16" from edge.

Paper Airplane Flying Instructions

Make sure wings are level (or slightly up) and fins are straight up. Throw level at a "high" speed. Trim per general instructions if required. It will do better if nose is taped together.
